## BASKET FUND WAS GIVEN MORE HELP

What would do if you had a nice home for which the rent was paid in advance, nice furnishings, bought on the installment plan, and so could not be sold, and a wife and three children who were hungry, and you didn't have a cent to your name? That is the question that confronted a man in Oklahoma City yesterday.

Outwardly the man is prosperous. He is a skilled accountant, has been for several years an expert at his trade, upon which he has spent hundreds of dollars to perfect himself, but for months he has not been able to get work.

Not strong enough to do manual labor, but an expert in one line and only one, what was he to do? He had not enough money to go to a town where he could get work—nothing to do but live out the rest of his small savings in the hope that work would be open soon.

The case was brought to the notice of the Provident Association yesterday and the family was supplied with food for several days. Also with a fine Christmas dinner. It was one of the most peculiar cases encountered by the association workers in a great while. The family had plenty of clothes, a rented house, warm beds, coal and gas stoves, and the bills paid up, but not a cent for food, not a piece of jewelry that had not gone to the pawnshop and not a chance but charity to tide them over until better times.

That is the work the association meets with. That is the kind of work it has to do every day. A great many of the citizens of Oklahoma City are doing their part, but more should add their help. A contribution to the Provident Association now will do a great deal toward making some home happy on Christmas day.

## EXPERTS COMING TO DAIRY MEET

Interesting Program Being Prepared for Farmers Who Attend Event Connected With A. & M. Winter Course.

Extensive arrangements are being made by the dairy division of the state agricultural department to make the dairy meeting to be held in connection with the annual winter short course for farmers at the A. & M. college a success. The dairy meeting will be held January 13, and a number of dairy experts have been engaged for lectures at that time. Farmers from all over the state, and especially those engaged in dairying, will attend the meeting. They will also be invited to give the meeting the benefit of their opinions and observations.

A. J. McDowell, dairy expert of the Frisco Lines, James A. Wilson, assistant state agent, and Miss Fulton, professor in domestic science at the agricultural college, will be among those who will lecture on dairying at the meeting.

Be satisfied with the milk of human kindness if you can't get the cream.
